GEOPOETICS IN THE BIOSPHERE,

The month of July is dedicated to **geopoetics** in the Minett UNESCO Biosphere. We invite you to discover a young discipline that combines geography, geology and poetry with literature and thus **discover our biosphere region in a different way.**

You can actively participate in our geopoetic journey. In this newsletter you will find all the necessary details to **be part of the project.**

WHO ARE OUR GEOPOETS?

The Italian writer and journalist **Davide Sapienza** visits the Minett and is accompanied by **Robert Weis** from Dudelange, researcher at the 'Musée national d'histoire naturelle'.
