

NEWSLETTER N°4 AUGUST 2021

MINETT UNESCO BIOSPHERE

Dear friends of the Minett UNESCO Biosphere,

The summer of 2021 is slowly coming to an end.

That's why we're looking back at our great **geopoetic exploration «Rocklines»**, that marked this summer in our biosphere reserve. We also **present the Geoheritage Days**, which will take place at the beginning of September.

And if the weather forces you to stay indoors, we **have a great «Do It Yourself» idea** for you.

REVIEW OF THE 'ROCKLINES'-PROJECT

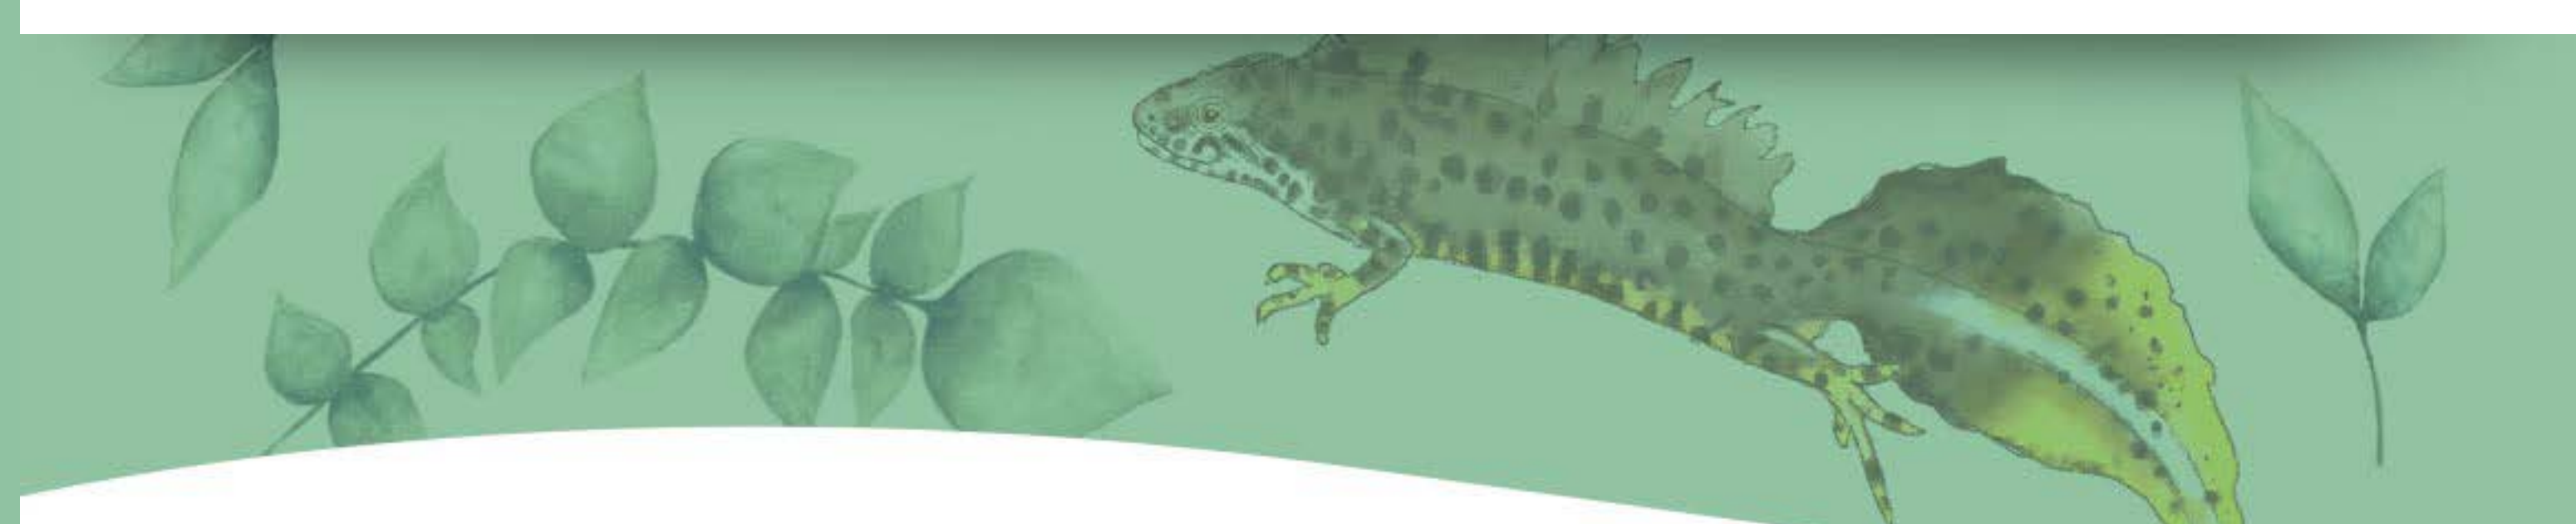

From the **11th to the 28th of July**, Italian writer, Davide Sapienza, and Luxembourgish geologist and palaeontologist, Robert Weis, from the National Museum of Natural History **explored the Minett**.

They are **currently working on a geopoetic travel diary** to discover the unique landscape of the Minett in a new way.

Have a look at what the two adventurers experienced this summer:

GEOHERITAGE DAYS

On the **weekend of the 4th and 5th of September**, the Minett UNESCO Biosphere, in collaboration with the Natur- & Geopark Mëllerdall, offers you **exceptional geological discoveries** during the first **Geoheritage Days**.

On Saturday you can discover the geology of the Mullerthal and on Sunday the geology of the Minett.

JURASSIC WALK

During the 'Geoheritage Days', you can join us for a **'Jurassic Walk' to the Hutberg in Rumelange** on Sunday 5th of September.

This guided tour is organised by the Minett UNESCO Biosphere in collaboration with the «National Museum of Natural History» and the «Musée National des Mines» in Rumelange.

Accompany the **Luxembourgish palaeontologist, Ben Thuy**, on an exciting journey into the past and learn more about our region in the **age of the dinosaurs**.

DO IT YOURSELF

If the weather over the next few days is so bad that you'd **rather stay at home**, we have something entertaining for you: **Build your own worm compost bin**.

A composter is **easy to build**, and you can easily **turn your organic waste into fresh soil** for the garden.

You will certainly have fun **building your own composter** with the help of this simple and effective 'How To':
